

The Estrella is a streamlined, freestanding kiosk that provides static or interactive digital content. The portrait orientated screen is powered by a Windows PC, Media Player or a device the customer wants to supply. Fabricated with either a single or dual-sided display, this kiosk delivers a captivating user experience in any public setting. The Estrella can come in multiple colors with branding and or peripheral devices. Our ultra bright screens present unrivaled clarity while informing or selling your message to the public.

Like all NextGenKiosks, the Estrella provides ADA compliant and ergonomically easy interactions with incredible responsiveness for any self-service environment. The durable and attractive steel stand supports 32", 43", 55", or 65" screen sizes. With no exposed cables, wires, or ports the Estrella is designed to run 24x7x365 in high traffic, unattended public spaces. When looking to project your message look no further than the Estrella indoor kiosk.
